

किसान का भविष्य...

हमारा लक्ष्य...

## **INTRODUCTION**

Agriculture plays a significant role in the overall socio-economic fabric of India and currently India is ranked second in farm output worldwide. Agriculture not only provides food and raw material but also provides numerous employment opportunities to a large proportion of population. In the process of achieving the desired growth, pesticides play an important role in Indian agriculture. Pesticides, the agrochemicals, help in sustaining the agricultural production and avoid the production lost due to the insects, pests, plant pathogens, weeds etc.

Gupta Biotech (P) Limited has taken a step forward in this agriculture industry with a promise to improve the quality of the yield and its output by providing high quality agrochemicals to the farmers and educating them to use modern farming techniques.

## COMPANY PROFILE

Gupta Biotech (P) Limited is an agrochemical company established by the visionary industrialist Shri Shyam Prakash Bansal who has a business experience of around 60 years in various fields. It's currently run by Mr. Virender K. Bansal with a business experience of 35 years.

Their main objective is to supply the best quality products to the farmers using the latest technology. Their zero-tolerance approach makes it mandatory for the management and all the employees to follow high quality standards from procurement of raw materials to manufacturing and dispatch, thus enabling continuous upgradation of our quality management systems. We have a fully equipped in-house laboratory where each product is thoroughly checked to ensure that the product quality is being maintained as per industry standards. GBPL is engaged in the distribution, marketing and supply of agrochemicals to the farmers of sugarcane, cotton, rice, wheat, fruits, vegetables, etc. The procurement of inputs for formulation or manufacturing is affected by our proficient purchase department which maintains a close liaison with major suppliers at national and global level. It is our constant endeavor to provide the most premium grade agrochemicals to our clients. A goal oriented company; we aim to expand our business further to untapped markets in the domestic as well as the international arena.
